

Product data sheet

THZ

Emergency power control unit with simple design for small smoke and heat extraction systems

Product features

- Compact and attractive design with a plastic housing
- Safety and reliability confirmed by VdS and TÜV certification
- Maximum flexibility thanks to comprehensive parameter setting possibilities

Application Areas

- Smoke dissipation in stairwells
- Connection possibilities for smaller RWA solutions
- RWA drives with an overall power consumption of 3.4 A
- Control of electromotive 24 V DC drives for smoke and heat extraction in the event of a fire
- Control of a controlled natural ventilation

Product Data Table

Product features	GEZE THZ
Housing dimensions	193 x 285 x 89 mm

Accessory

Product name

- SHEV button FT 4, VdS approved
- GEZE LTA-24-AZ
- Rain and wind control
- Smoke detector RM 1003
- SHEV button FT4 K
- Heat detector WM 1005
- GEZE LTA-LSA
- E 70 room thermostat
- SCT key switch
- WRM-24 receiving module
- Receiving module WRM-24B
- WTH remote control
- Transmitting module WTM
