Art. Vario75 02045807 - Vario100 02045810 - Vario150 02045815
Rev.03 of: 27/08/2021

Supply and installation of white adhesive tape FDB VARIO Riwega, in the 75, 100 and 150 mm wide variants, made of heat-sealed multilayer fabric (PET.PA), coated with acrylic adhesive glue on the entire surface, to be laid on the junction between the false-frame and the wall, with variable hygrometry (S_d value 0.5 - 20 m) with the function of airtightness (if laid on the internal side) and wind tightness (if laid on the external side). The surface of the tape is specifically designed for the sealing of the plaster that will cover the wall and the counter-frame avoiding the detachment and the consequent cracking that would cause the air leakage.

Supplier: Riwega Srl, via Isola di Sopra 28, 39044 Egna (BZ) - I
